Price List 2016

Repair Materials and Spare Parts

October 1, 2015 to September 30, 2016

Our spare parts and repair materials are right out of the inventory of materials we use to fabricate our boats so you can be sure of the same high quality parts as we put into our boats. If you don't see an item you want in our catalog, give us a call—we may have it.

Custom Fabrication

These items are priced based upon the quantity ordered and the specifications. Listed below are several products you may be interested in.

Cross tube bladders and disc end cross tubes—10" to 36" diameter by any length.

Roller tubes—any size and length, move big boats easily with several roller tubes.

Logos and numbers—increase outfitter identification and track your fleet more easily. Check out our new “inlaid” method for logo and number patches.

Repair Work

There will be a minimum charge of \$50.00 to evaluate a boat for repair. If you choose us to do the repairs, the \$50.00 will be credited against the repair work charge.

We ship via United Parcel Service (UPS) ground unless otherwise requested.

SALES TAX POLICY: We are required to collect Maryland sales tax (6%) on all items picked up at our plant or shipped within Maryland, unless your company has a valid Sales Tax Exemption Certificate on file with us.

Our terms are net 30 days from shipping date subject to credit approval (otherwise credit card, COD, or prepaid). Orders under \$50.00 may be shipped COD. Prices subject to change without notice. Shipping is FOB Friendsville, MD. Please make payment in U.S. dollars drawn on a U.S. bank.

Business Hours: Monday-Friday, 8:00 a.m.-5:00 p.m., Eastern time

COMMERCIAL WATERPROOF BAGS

Demaree Inflatable Boats fabricates waterproof bags in both cylindrical and rectangular shapes. All of our bags feature a crimped, roll-down closure with webbing straps fastened through buckles or camlocks. Each bag has a D ring or a webbing handle for carrying and lashing.

We assemble all bags from the same materials that go into our boats. The fabrics we use range in weight from 30 oz. to 60 oz. per square yard depending on your preference. We apply a layer of gum sheet to the bottom of each bag. To achieve color, we paint the bags prior to vulcanization.

Many outfitters have us number and/or letter the bags. This helps your customers find their gear quickly and makes tracking your bags easier. We apply gum logos prior to vulcanizing the bags. If you have a special logo you want us to quote, send us a sketch or your artwork. Please refer to our Color Availability sheet or page 2 for color choices.

We have standard sizes and shapes, but we also do custom bags. Send us your bag dimensions for a quotation. The following specs and prices are for our most commonly manufactured bags.

Dimensions	Fabric	Price black	Price colored
12" diameter x 27" height	30 oz.	205.00	240.00
15" diameter x 32" height	30 oz.	245.00	280.00
Logos — priced per order
